

# INTERNAL

## AUDITOR TRAINING

Internal auditing is a fundamental requirement when maintaining an ISO Management System. Ensuring compliance and investing in continual improvement enables your company to protect their original investment and reap the lasting benefits of ISO.

Our course will enable your staff to plan and prepare your company for internal audits. Our professional and friendly IRCA (International Register of Certificated Auditors) qualified\* trainer will guide you through the course content providing you with course material enabling you to develop your action plans and be confident in sampling key documents and records. The CPD certified course includes interactive presentations, workshops, role-playing exercises and a certificate upon completion.

Ensure your ISO Standards are operated and maintained to the highest level, safeguarding your management system and protecting your original investment.

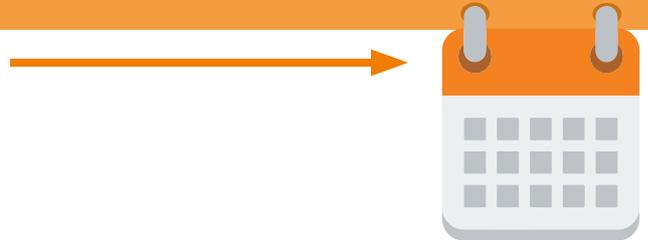

\*Or equivalent.
